Beginning May 25, determine your daily reading goal based on your personal reading habits. It can be minutes, pages, chapters, or any combination of these that you plan to read every day. For example: consider reading 30 minutes at your reading level per day.

For each square **"EXPEDITION"** stamp on your Reading Passport, you have the option of completing your DAILY reading goal, OR participating in a Library Program*, OR writing a book review for the Middle School wall*.
